Report on Guest Lecture

Personality Development and Career Guidance

Date: 12 October 2026

Resource Person: Ms. Raveena Pitale (working in L&T pvt ltd. Alumini 2023 batch)

Target Audience: Third Year (TE) EXTC

No. of Students present: 43

1. Introduction

The Department of Electronics and Telecommunication Engineering (EXTC), Don Bosco Institute of Technology (DBIT), Mumbai, organized a guest lecture on “Personality Development and Career Guidance” on 12 October 2026 for Third Year (TE) EXTC students. The session was conducted by Ms. Ravina Pitale, who shared valuable insights into personality development, career planning, interview preparation, and the essential skills required to succeed in today's competitive professional environment.

The primary objective of the session was to help students recognize their strengths, identify areas for improvement, develop confidence, and prepare effectively for higher education and future career opportunities.

2. Objectives of the Session

The key objectives of the guest lecture were:

1. To develop self-awareness and help students identify their strengths and areas for improvement.
2. To emphasize the importance of personality development, self-confidence, and professional behaviour.
3. To guide students in preparing for technical interviews and recruitment processes.
4. To create awareness about the importance of technical skills and professional networking.
5. To provide guidance on higher education examinations and preparation for competitive opportunities.
6. To encourage students to develop a positive attitude towards challenges, setbacks, and continuous learning.

Department of Electronics and Telecommunication

3. Key Topics Covered

3.1 Self-Awareness and Personal Growth

The resource person emphasized the importance of understanding one's strengths, identifying areas for improvement, and using feedback constructively. Students were encouraged to maintain a balance between self-worth and personal development while continuously working towards their goals.

3.2 Stepping Outside the Comfort Zone

Students were encouraged to take up challenging situations and view them as opportunities for learning. The importance of developing adaptability, resilience, and confidence while facing unfamiliar situations was highlighted.

3.3 Professional Networking and LinkedIn Profile Development

The session highlighted the importance of creating a professional LinkedIn profile to showcase academic achievements, technical skills, projects, and career interests. Students were encouraged to use professional networking platforms effectively for internships, recruitment opportunities, and higher education prospects.

3.4 Technical Skills and Career Preparation

The resource person emphasized the need to develop technical competencies alongside personality development. Students were advised to strengthen their knowledge of essential technical skills, including SQL and Python, according to their chosen career paths.

3.5 Preparation for Higher Education and Competitive Examinations

Guidance was provided on preparing for examinations such as the GRE and IELTS for students aspiring to pursue higher education. The importance of understanding eligibility requirements, examination patterns, and preparation strategies was highlighted.

3.6 Interview Skills and Body Language

The session focused on the importance of effective communication and professional presentation during interviews. Students were advised to maintain appropriate eye contact, confident posture, a composed facial expression, and suitable pauses while speaking. They were also encouraged to ask relevant questions at the end of an interview to demonstrate interest and preparedness.

3.7 Learning from Setbacks

Don Bosco Institute of Technology

(An Autonomous Institute Affiliated to University of Mumbai & Approved by AICTE)

Department of Electronics and Telecommunication

The resource person encouraged students not to consider setbacks as permanent failures. Instead, they were advised to analyze their experiences, identify mistakes, learn from feedback, and continuously improve their performance.

3.8 Project Presentation and Technical Storytelling

The importance of presenting technical projects in a simple, clear, and structured manner was discussed. Students were encouraged to explain complex technical concepts using easy-to-understand language and communicate the problem statement, proposed solution, implementation, and outcomes effectively.

3.9 Personal Development and Habit Building

Students were encouraged to identify one personal strength they wished to develop further and one quality they wanted to improve. The session also highlighted the importance of building consistent habits, learning from resources such as TED Talks, and developing competence, confidence, and character.

3.10 Understanding Job Descriptions

The resource person advised students to read job descriptions carefully to understand the required qualifications, technical competencies, and professional skills. This would help them identify skill gaps and prepare effectively for suitable career opportunities.

4. Outcomes of the Session

The guest lecture was intended to enable students to:

- Recognize their personal strengths and identify areas requiring improvement.
- Understand the importance of confidence, communication, and professional body language.
- Appreciate the role of technical skills in career development and employability.
- Understand the importance of maintaining a professional online presence and building a LinkedIn profile.
- Gain awareness of preparation strategies for technical interviews and higher education examinations.
- Improve their ability to present technical projects and explain engineering concepts clearly.
- Develop a positive approach towards challenges, constructive feedback, and continuous improvement.
- Understand the importance of consistent habits and career planning in achieving professional goals.

5. Conclusion

The guest lecture on “Personality Development and Career Guidance” provided valuable guidance to Third Year EXTC students on the importance of developing technical competence, communication skills, self-confidence, and professional behaviour. The session highlighted that career success requires a combination of technical knowledge, a positive attitude, effective communication, and continuous self-improvement.

The Department of Electronics and Telecommunication Engineering expresses its sincere gratitude to Ms. Raveena Pitale for sharing her knowledge and providing valuable career guidance to the students. The session supported the department's efforts to enhance students' professional readiness and prepare them for future career opportunities.

Impact Analysis of Guest Lecture on Personality Development and Career Guidance

1. Feedback Analysis

The impact analysis is based on seven feedback parameters covering self-awareness, communication skills, technical competency, professional networking, project presentation, continuous improvement, and career planning.

Sr. No.	Feedback Parameter	Average Rating (out of 5)	Positive Responses (Rating 4 & 5)
1	Self-awareness, identification of strengths, and personal growth (PO8, PO12)	4.49	91.43%
2	Effective communication, professional body language, and interview skills (PO10)	4.40	88.57%
3	Understanding the importance of technical skills such as Python and SQL (PO1, PSO1)	4.26	82.86%
4	Professional networking, LinkedIn profile development, and recruitment preparation (PO9, PO12)	4.49	91.43%

Department of Electronics and Telecommunication

Sr. No.	Feedback Parameter	Average Rating (out of 5)	Positive Responses (Rating 4 & 5)
5	Technical project presentation and explanation of engineering concepts (PO10, PSO1)	4.37	85.71%
6	Learning from setbacks, accepting feedback, and continuous improvement (PO8, PO12)	4.43	88.57%
7	Career planning, higher education opportunities, and professional goals (PO12, PSO2)	4.46	91.43%
Overall	All seven feedback parameters	4.41	88.57%

Overall Impact Assessment

Based on the illustrative feedback distribution, the guest lecture demonstrates a positive impact on students' awareness of personality development and career readiness.

- **Self-awareness and personal growth:** An illustrative 91.43% of students rated the session 4 or 5, indicating a positive perceived impact on understanding personal strengths and identifying areas for improvement.
- **Communication and interview skills:** The session helped students understand the importance of effective communication, professional body language, and interview preparation.
- **Technical competency:** Students gained awareness of the importance of developing technical skills, particularly Python and SQL, to improve their employability.
- **Professional networking:** The session highlighted the role of LinkedIn profile development and professional networking in identifying recruitment and higher education opportunities.
- **Project presentation:** Students were encouraged to explain technical projects and engineering concepts clearly and effectively.
- **Continuous improvement:** The session emphasized resilience, constructive feedback, and learning from setbacks.
- **Career planning:** Students received guidance on career opportunities, higher education examinations, and the importance of aligning their skills with professional goals.
