

**DON BOSCO INSTITUTE OF
TECHNOLOGY, KURLA**

**REPORT ON
INDUSTRIAL VISIT AT
RELIANCE JIO GHANSOLI, NAVI
MUMBAI**

DATED ON 14TH SEPTEMBER,2019

About JIO: -

Jio is an entire ecosystem that allows Indians to live the digital life to the fullest. This ecosystem consists of powerful broadband networks, useful applications, best-in-class services and smart devices distributed to every doorstep in India. Jio's media offerings include the most comprehensive libraries and programs of recorded and live music, sports, live and catch up television, movies and events. Jio is about creating connected intelligence for 6 billion global minds to unleash the power of a young nation. We are all set to change the way people work, play, learn and live.

Coverage:

Jio is committed to provide coverage across urban and major rural areas. Jio is aiming to cover 90% of India's population in the next 18-24 months.

Visit: -

Venue: - RELIANCE JIO GHANSOLI, NAVI MUMBAI

Timing: - 10 am to 4pm

For: - BE EXTC department of DBIT

Assembling Point: - Gate House

This IV was majorly aimed for the recruitment process of BE EXTC 2020 batch so that we could have an idea of the company. Students assembled at main gate at the receptionists. We were given our visitor pass as an entry identity to their company.

The crowd was divided into two groups and were made to travel in two buses to their various apartments. First, we visited at the marketing apartment where they had their products that will be launching in the market soon and also the products they are working on, which is not yet disclosed like on the product is JIO prime merchant. The products that was displayed

- Digital room
- Smart box
- JIO car
- JIO prime merchant
- LYF Phone

- 4G Broadband

We started the visit with Digital room where we were briefed about Smart box which have the capability of connecting 44 potable device and the box is use for internet communication and briefing about their different application such as JIO saavan and JIO play store they will be launching in their smart TV.

JIO car device is one the interested device which they will be launching soon. The device works as wi-fi hotspot not only this but can give the insight of the car, what more interesting is the they have develope interface where any one can track the live location of the car through the JIO car device. Another interesting device was JIO prime merchant which is basically made for local merchant the device as feature like online payment through Debit card or even wallet pay this device can be the next example of being totally cash less. It has more features like Barcode scanning and side account for customer.

Later on, we moved to the conference room where we were briefed about JIO campus and the culture they follow. The presentation was given by the team BOND. We were explained about BOND team was such name what they do basically the BOND is the team of fresher's where they word on software testing and many different projects for few months and then they select on which project they want to work. The ppt also consist of different courses they provide such as AI, Blockchain, Deep learning and many more. They also told us about their campus like they have their own cricket stadium, TT ground and many more things

Next session was on the Jio giga fiber. Jio fiber offers superior internet experience to explore our Digital Life. Jio fiber is the technology of the future. It offers the ultimate broadband experience to surf, stream, game and work. Jio fiber beats the rest because of its ultra fast upload and download speeds. They explained us how the connection is made from optical fiber to the home smart box, the report had the functionality of voice command also.

At the we had moved across the entire campus of JIO in bus where guide with us gave us some idea what part is done in which apartment and where Mukesh sir sits and when he visit the office.
